Removable water tank/capacity	2,4 lt.
Capacity of the bean hopper	300 gr.
Boiler	aluminium
Pump pressure	ca 15 bar
Colour	silver-black
<b>Product Plus</b>	
<p><b>Pannarello</b> - This convenient milk frothing attachment is applied on the steam spout to easily obtain a creamy cappuccino.</p>	
<p><b>Two independent boilers</b> - The two boilers make it possible to produce steam in just a few seconds so that coffee and steam are dispensed simultaneously.</p>	
<p><b>Removable brew group</b> - This is the heart of automatic coffee machines, regulating the automation of all the operations necessary to obtain real Italian espresso coffee. Thanks to this device - an exclusive Saeco patent - coffee dosing and brewing and used grounds ejection are performed automatically. Moreover, the Saeco brew group is fully removable - the only one of its kind in the world - to allow for fast and easy cleaning, without the use of additives.</p>
